

LITHIUM BATTERIES: SIMPLIFIED TAKEBACK FOR GLOBAL CUSTOMERS

Risk management is crucial!

To keep fully compliant and up-to-date with the latest lithium battery take-back requirements is a challenge.

Our services support producers of lithium batteries, electric vehicles, and e-bikes/scooters, as well as other organizations owning spent lithium batteries that require multi-country and coordinated takeback.

Lithium batteries
all sizes

Pick-up and
transportation

Battery compliance
scheme recycling

Customer benefits

- Harmonised global service delivery
- Single provider with a global solution providing the full range of services
- Single point of contact for global lithium batteries takeback operations
- Control tower for operational and financial reporting
- Fully compliant logistics and recycling network
- Minimisation of safety hazards and environmental impact

Expertise

Our core competence is waste management, based on 10+ years of managing international takeback activities for lithium batteries.

- Established reverse supply chain in 40+ countries
- Mature and extensive audited network of consolidation centers and recyclers
- Synergies with batteries PROs in the majority of EMEA countries
- Supplier qualification, monitoring, and auditing
- Centralized backoffice operations
- Multi-lingual experts in operations, audits, and environmental compliance

What does it encompass?

Specialised Collection:

- Lithium batteries (both contained in equipment and stand-alone), regardless of size (portable to large scale installations) and condition (intact, defective, and damaged)
- Pick-ups from professional users, distribution and repair centers, retailers, end-users, and producers of EEE containing lithium batteries
- Supply of appropriate and authority-approved packaging, labelling, and packing instructions

Transportation:

- Domestic and cross-border in full compliance with national/international regulations

Treatment:

- Use of specific treatment sites or battery compliance scheme recycling networks

About us

Landbell Group is a leading global supplier of environmental and chemical compliance services, which helps companies to carry out their extended producer responsibility (EPR) obligations.

With customers in many countries, and colleagues based all over the world, we are a global platform for EPR.

Our unique approach

- An international team and network of compliance experts combine unrivalled operational expertise with consulting competence
- We run more approved EPR schemes than any other organisation globally
- We offer international support for EPR and chemical regulations, as well as software solutions for efficient compliance management processes
