

E-WASTE TAKEBACK: COMPLETE SOLUTION FOR END-OF-LIFE DEVICES

Gain access to a global e-waste platform

e-waste is a complex mixture of components, materials, and substances. If not properly managed, it may cause collection/treatment inefficiencies, environmental damage, and result in fines or penalties.

We support:

- Multinational producers and distributors of electrical and electronic equipment (EEE) by providing takeback services to their customers
- Worldwide companies that use EEE in their service provision
- International organisations that need harmonised e-waste management.

Global solutions

Enhancing circular economy initiatives

Single point of contact

Treatment:

- Approved treatment sites audited to defined recycling standards

Customer benefits

- Global and harmonised solution, providing the full range of e-waste takeback services
- Single point of contact for global takeback operations
- Fully compliant logistics and recycling network
- Own recycling standards and IT operating system
- Control tower for operational and financial reporting

Expertise

- In-depth knowledge of local and international waste and transport regulations
- Extensive operating network (300+ suppliers in 48+ countries)
- Landbell Group's unique e-waste platform operates more producer responsibility organisations than any other company globally (15+ years managing end-of-life EEE)
- Diverse and multi-lingual experts in operations, audits, and environmental compliance

What does our service offer?

Collection:

- EEE with all related consumables and packaging
- Pickups from companies and organisations, production sites, distribution and repair centres, retailers, drop-off points, and end-consumers
- Loose, parcels, pallets, cages, skips, containers, and full truck loads

Transportation:

- Domestic or cross-border in compliance with all applicable regulations

About us

Landbell Group is a leading global supplier of environmental and chemical compliance services, which helps companies to carry out their extended producer responsibility (EPR) obligations.

With customers in many countries, and colleagues based all over the world, we are a global platform for EPR.

Our unique approach

- An international team and network of compliance experts combine unrivalled operational expertise with consulting competence
- We run more approved EPR schemes than any other organisation globally
- We offer international support for EPR and chemical regulations, as well as software solutions for efficient compliance management processes
- Our global takeback programmes collect products anywhere
